Assistant Executive Director

FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

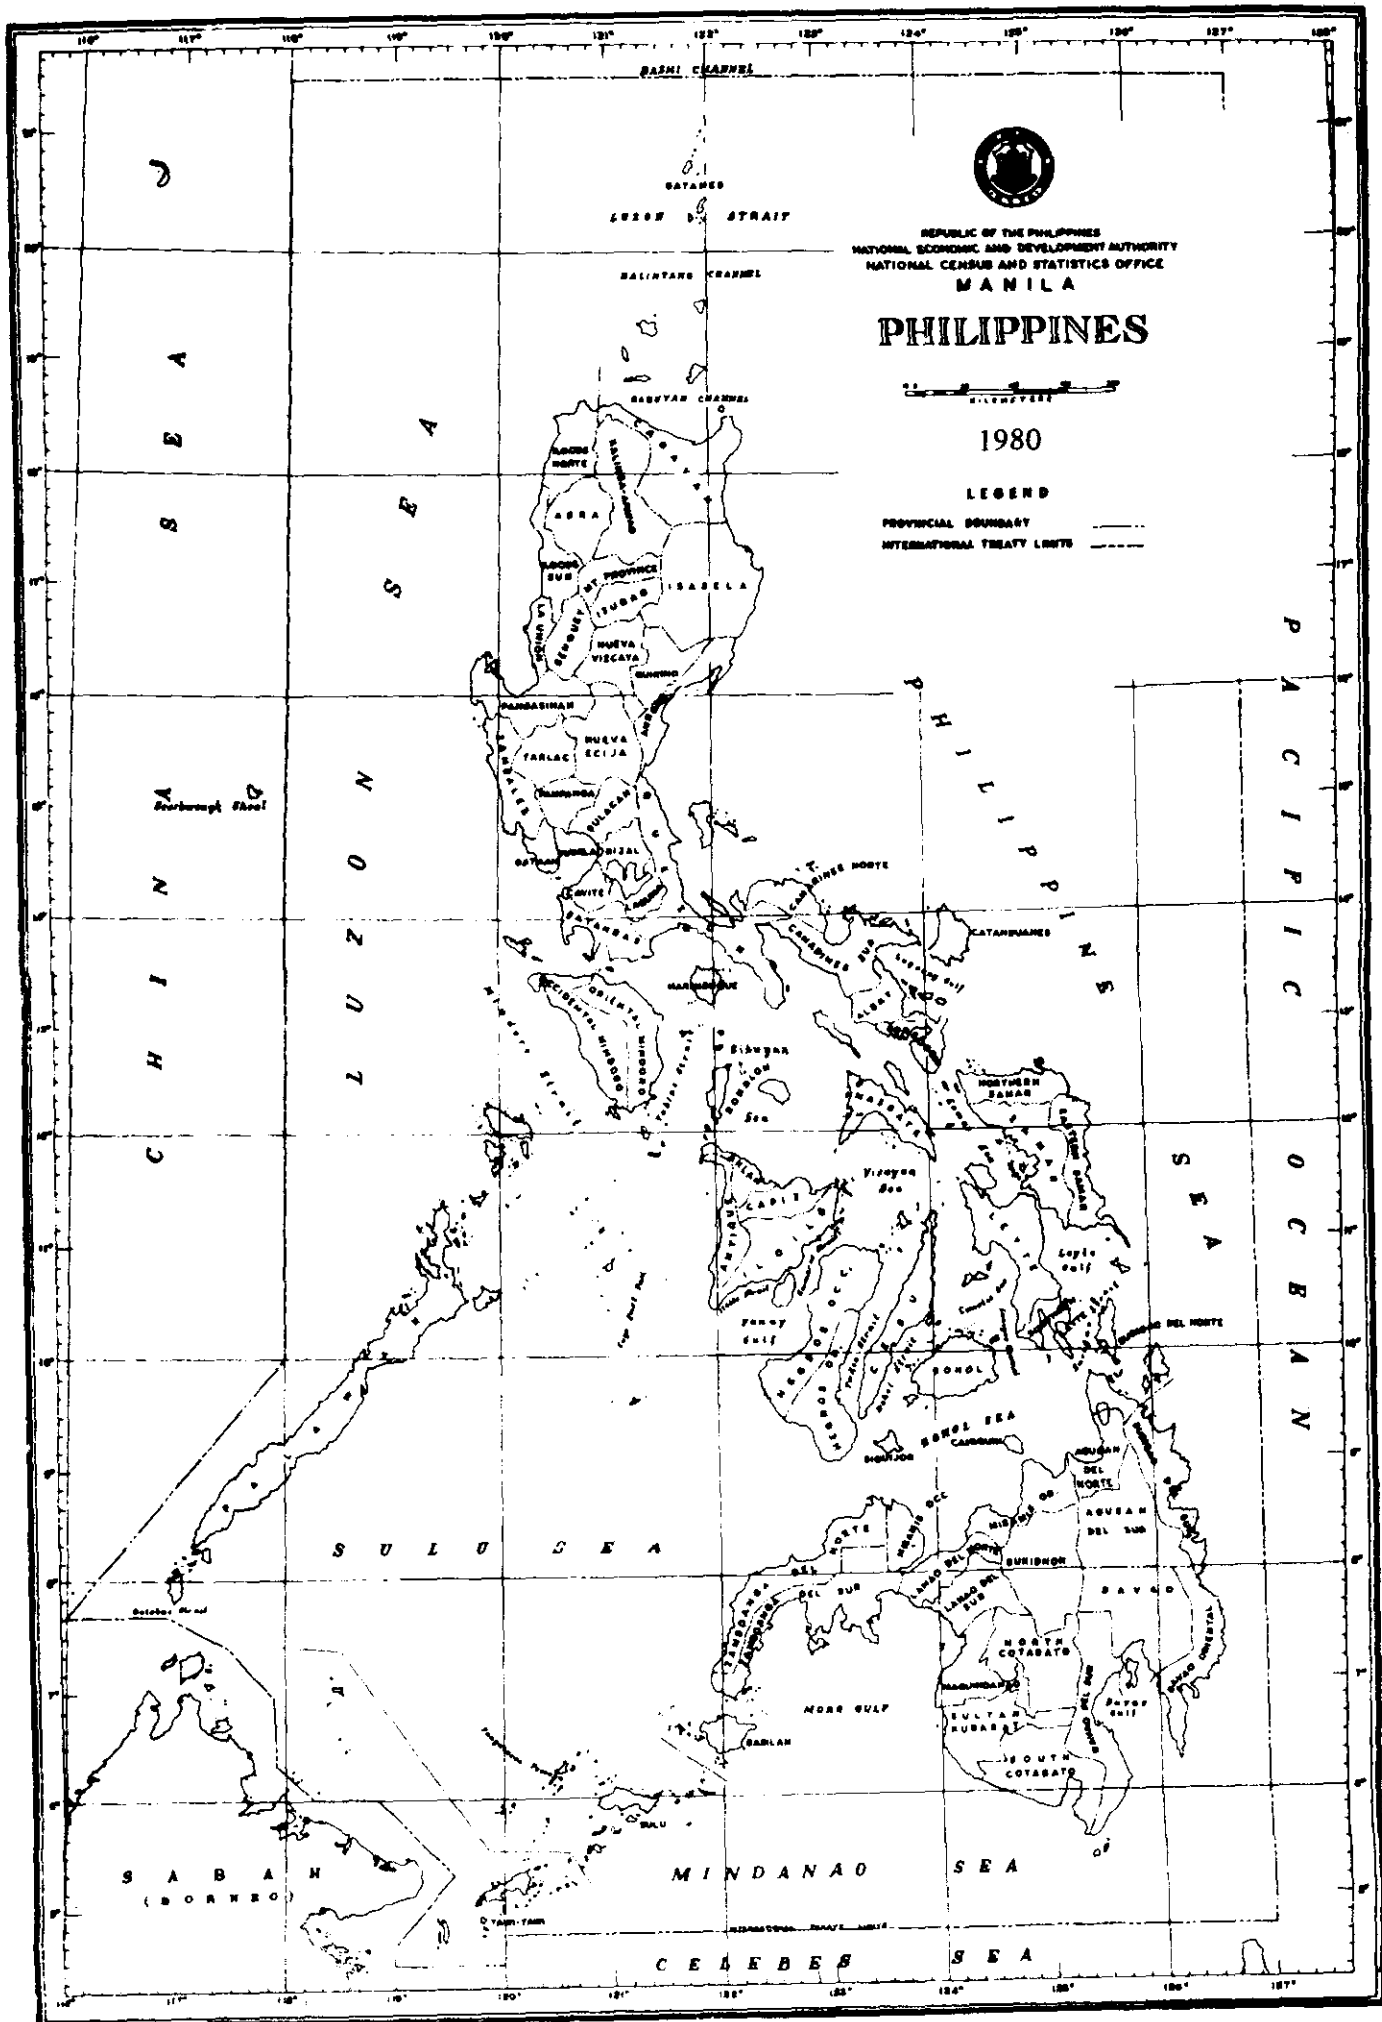

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial, City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

| Population Items | Housing Items |
|--|---|
| Age | Type of Building |
| Sex | Type of Occupancy |
| Marital Status | Construction Materials of Roof and Outer Walls |
| Highest Grade Completed | Year Built |
| Literacy | Floor Area of Dwelling Unit |
| Language/Dialect Spoken in the Household | Tenure of Owner-Occupant with Respect to the Land |
| Gainful and Non-Gainful Occupation | Kind of Lighting Facilities |
| Major and Minor Industry | Use and Source of Water Supply |
| Migration | Type of Toilet Facilities |
| | Kind of Cooking Fuel |
| | Household Appliances |

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law — refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter — child of the son or daughter of the head.
5. Other relative — a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others — any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single — If never been married.
- b. Married — Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed — A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated — If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced — If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown — If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as *gainful workers*.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**
An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.
An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.
A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.
4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.
Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.
Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.
Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.
6. **Other housing unit (natural shelter, boat, etc.)**
This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.
7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

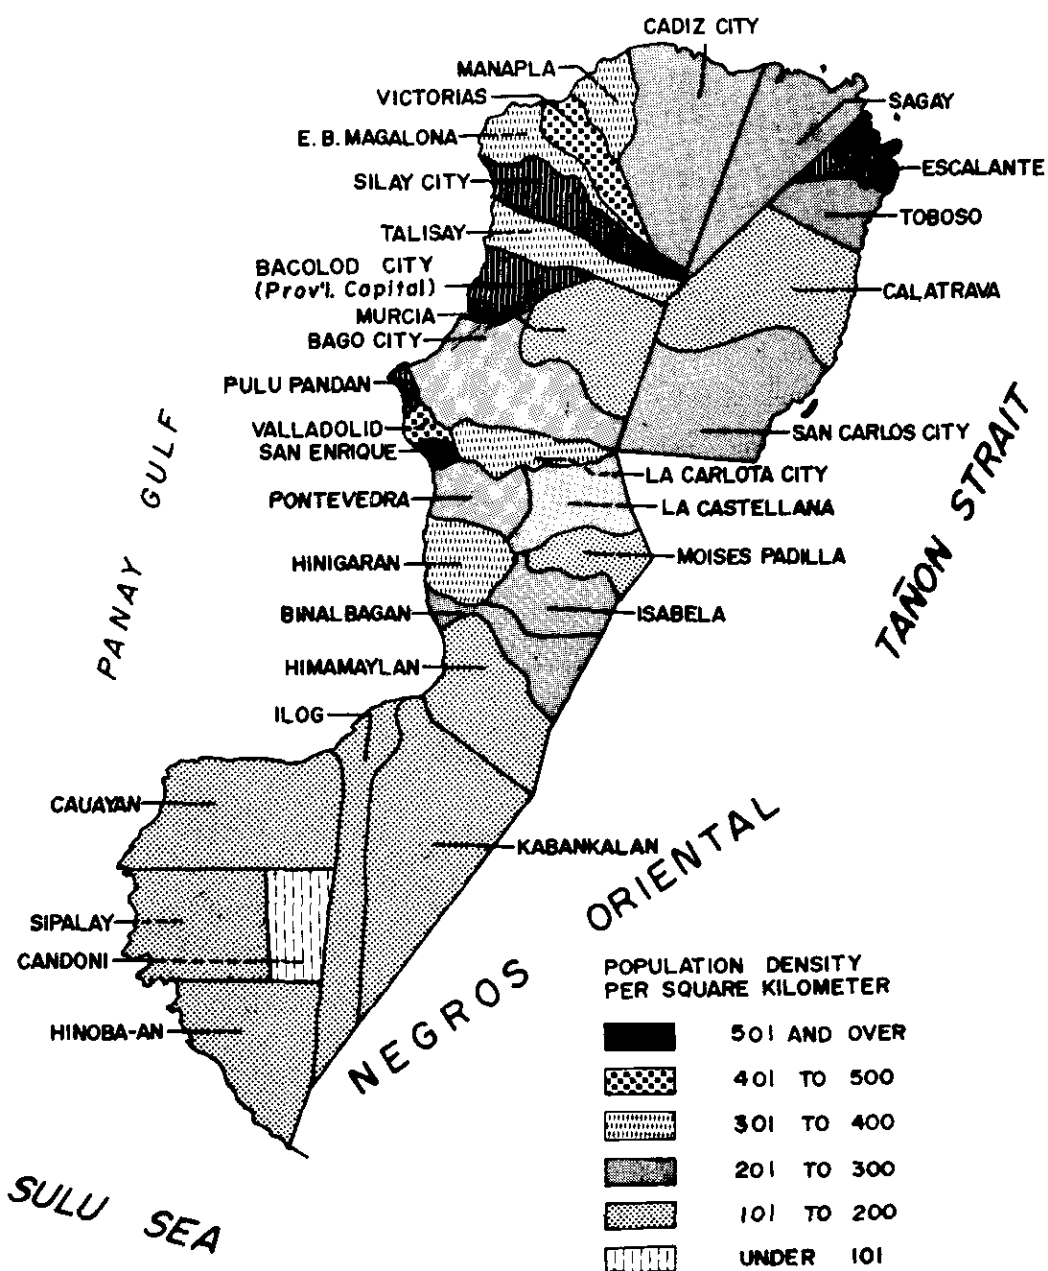

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

POPULATION DENSITY OF
NEGROS OCCIDENTAL PROVINCE
BY CITY/MUNICIPALITY : 1980

Negros Occidental: A Brief Analysis

Negros Occidental, the biggest of the five provinces comprising the Western Visayas Region, occupies the western and northern portions of Negros Island and is separated from Negros Oriental by the Kanla-on Mountain Range. Its northern and southern boundaries are defined by the Visayan Sea and the Sulu Sea, respectively, while its eastern and northeastern boundaries are defined by Negros Oriental and Tañon Strait, respectively. The Guimaras Strait in the west separates the province from Guimaras Island and Iloilo.

The three physiographic features of the province are: the northern highlands, the western plain and the southern highlands. The coastline of Negros Occidental is more irregular than its neighboring province, Negros Oriental. The northern and western parts are largely level plains and gently rolling slopes while the remaining portion is particularly a land of sierras of varying elevations. Mt. Kanla-on, which rises to an elevation of about 2,470.5 meters, is the highest peak in the province and is also considered one of the highest in central Philippines. The 24,577-hectare Mount Kanla-on National Park, which rises to the summit of the volcano with the Mambucal Summer Resort at its foot, is the top tourist landmark in the province.

Negros Occidental is popularly known as the "Sugar Bowl of the Philippines". Sugar typifies the province's economy and contributes about 54 percent of the total national output. It boasts of 15 sugar mills, one of which is reportedly the largest integrated mill and refinery in the world, the Victorias Milling Company. Another foremost industrial complex in the province is the Insular Lumber Company in the municipality of Hinoba-an, also reported as the biggest lumber mill in the world. Moreover, the 250-hectare reclamation project in Bacolod City will serve as the site for future expansion of the city in particular and the province in general. If plans materialize, one of the major projects on this site is an international port.

The province has a land area of 7,926.1 square kilometers representing 2.6 percent of the total land area of the country. Six cities and 25 municipalities presently comprise Negros Occidental. Bacolod City, which is the center of commercial activities, serves as the provincial capital.

POPULATION

The province of Negros Occidental had a total population of 1,930,301 as of May 1, 1980, equivalent to 4.01 percent of the country's total population. The population figure indicated an annual growth rate of 1.57 percent, much lower than the 1970-1975 rate of 3.50 percent. Population density, on the other hand, moved up from 225.3 persons per square kilometer in 1975 to 243.5 in 1980.

A BRIEF ANALYSIS

A highly rural province in 1970 and 1975, Negros Occidental has made little strides towards urbanization. Of the total population, 63.23 percent reside in rural areas and 36.77 percent, in urban areas. Compared to 1975, the proportion of the urban populace is 2.06 percentage points higher in 1980. Likewise, slight changes are observed in the male and female ratios to total population. Male and female urban residents increased by 0.92 and 1.14 percentage points, respectively. Correspondingly, decreases in the proportions of the male and the female rural residents (1.24 and 0.82 percentage points, respectively) are noted.

The following table gives the urban-rural and sex distribution of the population for three censal years:

**TABLE A – URBAN-RURAL POPULATION BY SEX,
NEGROS OCCIDENTAL: 1970, 1975 AND 1980**

| Area Classification and Sex | 1980 | | 1975 | | 1970 | |
|-----------------------------------|------------------|---------------|------------------|---------------|------------------|---------------|
| | Number | Percent | Number | Percent | Number | Percent |
| Total | <u>1,930,301</u> | <u>100.00</u> | <u>1,785,792</u> | <u>100.00</u> | <u>1,503,782</u> | <u>100.00</u> |
| Male | 971,018 | 50.30 | 904,057 | 50.62 | 745,493 | 49.57 |
| Female | 959,283 | 49.70 | 881,735 | 49.38 | 758,289 | 50.43 |
| Urban | <u>709,744</u> | <u>36.77</u> | <u>619,820</u> | <u>34.71</u> | <u>502,999</u> | <u>33.45</u> |
| Male | 346,870 | 17.97 | 304,516 | 17.05 | 242,261 | 16.11 |
| Female | 362,874 | 18.80 | 315,304 | 17.66 | 260,738 | 17.34 |
| Rural | <u>1,220,557</u> | <u>63.23</u> | <u>1,165,972</u> | <u>65.29</u> | <u>1,000,783</u> | <u>66.55</u> |
| Male | 624,148 | 32.33 | 599,541 | 33.57 | 503,232 | 33.46 |
| Female | 596,409 | 30.90 | 566,431 | 31.72 | 497,551 | 33.09 |

The sex ratio (number of males per 100 females) of the population decreased from 102.53 in 1975 to 101.22, the males still outnumbering the females. Similarly, the sex ratios for the urban and rural areas decreased from 96.58 to 95.59 and from 105.85 to 104.65, respectively.

From the group of persons under 5 years of age through the 80 years old and over, the male and female population separately lessen as each age group becomes older. Hence, they form pyramid-like structures with the persons below 5 years of age as the broad base and those 80 years and over, the apex. Separately, the rural male and female population form the pyramid structure. Urban males follow the same pattern as the rural population. On the other hand, urban females show disagreement to the pyramid configuration with persons 15-19 years old outnumbering the 10-14 years age bracket (Figure 1).

A BRIEF ANALYSIS

AGE COMPOSITION

The proportion of persons belonging to the younger age group (0-14 years) is continually experiencing a downward trend. After decreasing from 46.67 percent to 45.15 percent, or by 1.52 percentage points between 1970 and 1975, it again decreased by 1.95 percentage points to 43.20 percent. However, the proportion of persons in the working or productive ages (15-64 years) maintained its upward swing from 50.87 percent in 1970 to 52.54 percent in 1975 and went up further to 53.78 percent in 1980. A slight increase is likewise noted among persons 65 years and over, or the older age group, from 2.31 percent in 1975 to 3.02 percent. Consequently, the median age of the population is a year higher (from 16 years in 1975 to 17 years in 1980).

Of the total urban population, 40.33 percent are under 15 years of age, 56.30 percent belong to the productive age group and 3.37 percent are at least 65 years old. Comparatively, 44.86 percent of the rural residents are under 15 years of age; 52.32 percent, 15 to 64 years of age and 2.82 percent, 65 years old and over.

A BRIEF ANALYSIS

Comparative figures on the age composition of the population are shown in the accompanying table:

**TABLE B — AGE COMPOSITION OF THE POPULATION,
NEGROS OCCIDENTAL: 1970, 1975 AND 1980**

| Age Composition | 1980 | | 1975 | | 1970 | |
|--------------------|------------------|---------------|------------------|---------------|------------------|---------------|
| | Number | Percent | Number | Percent | Number | Percent |
| Total | <u>1,930,301</u> | <u>100.00</u> | <u>1,785,792</u> | <u>100.00</u> | <u>1,503,782</u> | <u>100.00</u> |
| 0 — 14 years | 833,802 | 43.20 | 806,341 | 45.15 | 701,776 | 46.67 |
| 15 — 64 years | 1,038,137 | 53.78 | 938,287 | 52.54 | 764,962 | 50.87 |
| 65 years and over | 58,362 | 3.02 | 41,164 | 2.31 | 37,044 | 2.46 |

Due to an increase in the proportion of the working age group, the dependency ratio went down from 90.32 in 1975 to 85.94 in 1980. Rural dependency ratio was markedly higher than the urban ratio, 91.15 for the former and 77.61 for the latter. Comparatively, the dependency ratio was higher among the males at 88.60 than among the females at 83.32 (Table 3).

MARITAL STATUS

Married persons which constitute 49.07 percent of the total population 10 years old and over, finally dominated all the other marital status categories. From the previous years (1970 and 1975) their proportions were far behind those of the never married — 5.04 and 5.03 percentage points, respectively. Despite a negligible 0.45 percentage-point increase between 1970 and 1975, never married persons suffered a setback of 4.29 percentage points over the 1975 figure. The proportion of widowed persons dropped by 0.70 percentage point in 1975 then went up to 4.03 percent in 1980, a slight addition of 0.77 percentage point, while that of the divorced or separated followed the same pattern; from 0.40 percent in 1970, it whittled down to 0.25 percent and increased to 0.37 percent. Those with not stated status accounted for 0.08 percent.

A higher percentage of the never married group was observed in the urban than in rural areas — 48.93 percent against 44.91 percent. Likewise, the percentage of widowed persons was slightly higher in the urban (4.36%) than in the rural areas (3.83%). Divorced or separated persons showed a similar pattern, comprising 0.46 percent of the urban and 0.31 percent of the rural populace. On the other hand, 50.87 percent of the rural population were married compared to 46.15 percent of the urban population. Persons whose marital status were unknown made up a very small percentage of the urban (0.10%) and the rural population (0.08%).

As seen in Table 4, never married males totalled 48.48 percent of all males 10 years old and over, marking a considerable decrease of 4.34 percentage points from that of 1975. The proportion of married males at 48.87 percent, increased by 3.89 percentage points and those of the widowed and divorced or separated increased to 2.34 percent and 0.25 percent, respectively. Among the females, 44.42 percent were never married, following a marked

A BRIEF ANALYSIS

4.20 percentage-point decrease. In contrast, married females rose from 46.45 percent in 1975 to 49.27 percent in 1980; the widowed moved up to 5.73 percent and the divorced or separated to 0.48 percent. For both males and females, those who did not reveal their marital status increased to 0.06 percent and 0.10 percent, respectively.

A BRIEF ANALYSIS

Shown in the succeeding table is the classification of the population 10 years old and over by sex and marital status:

**TABLE C – POPULATION 10 YEARS OLD AND OVER BY SEX
AND MARITAL STATUS, NEGROS OCCIDENTAL: 1970, 1975 AND 1980**

| Sex and Marital Status | 1980 | | 1975 | | 1970 | |
|---------------------------|------------------|---------------|------------------|---------------|------------------|---------------|
| | Number | Percent | Number | Percent | Number | Percent |
| Both Sexes | <u>1,339,594</u> | <u>100.00</u> | <u>1,229,510</u> | <u>100.00</u> | <u>1,017,637</u> | <u>100.00</u> |
| Never married | 622,207 | 46.45 | 623,864 | 50.74 | 511,761 | 50.29 |
| Married | 657,314 | 49.07 | 561,955 | 45.71 | 460,494 | 45.25 |
| Widowed | 54,043 | 4.03 | 40,061 | 3.26 | 40,269 | 3.96 |
| Divorced/separated | 4,905 | 0.37 | 3,087 | 0.25 | 4,063 | 0.40 |
| Not stated | 1,125 | 0.08 | 543 | 0.04 | 1,050 | 0.10 |
| Male | <u>669,870</u> | <u>100.00</u> | <u>620,789</u> | <u>100.00</u> | <u>500,912</u> | <u>100.00</u> |
| Never married | 324,739 | 48.48 | 327,928 | 52.82 | 261,868 | 52.28 |
| Married | 327,327 | 48.87 | 279,205 | 44.98 | 225,565 | 45.03 |
| Widowed | 15,698 | 2.34 | 12,206 | 1.97 | 11,610 | 2.32 |
| Divorced/separated | 1,685 | 0.25 | 1,120 | 0.18 | 1,384 | 0.27 |
| Not stated | 421 | 0.06 | 330 | 0.05 | 485 | 0.10 |
| Female | <u>669,724</u> | <u>100.00</u> | <u>608,721</u> | <u>100.00</u> | <u>516,725</u> | <u>100.00</u> |
| Never married | 297,468 | 44.42 | 295,936 | 48.62 | 249,893 | 48.36 |
| Married | 329,987 | 49.27 | 282,750 | 46.45 | 234,929 | 45.46 |
| Widowed | 38,345 | 5.73 | 27,855 | 4.58 | 28,659 | 5.55 |
| Divorced/separated | 3,220 | 0.48 | 1,967 | 0.32 | 2,679 | 0.52 |
| Not stated | 704 | 0.10 | 213 | 0.03 | 565 | 0.11 |

HIGHEST GRADE COMPLETED

The proportion of persons with at least a year of elementary education to the private household population 7 years old and over still remained at a high level, although it had dropped from 63.56 percent in 1975 to 60.89 percent. The decline in the number of persons who had no formal schooling was encouraging. From a percentage share of 10.73 percent in 1975, its comparable figure went down to 8.84 percent in the latest census. On the other hand, those schooled until the high school level, now at 20.05 percent, increased by 3.14 percentage points. Gains were likewise registered by those who had attended college (from 4.30% to 6.09%) and those who earned academic degrees (from 2.93% to 3.81%). Those who did not reveal their educational attainment accounted for 0.32 percent.

Of those who had elementary training, 38.85 percent finished at most the third grade; 18.62 percent, the fourth grade; 13.92 percent, the fifth grade; and 28.61 percent, the sixth or seventh grade. Among those with high school education, 65.33 percent completed at least

A BRIEF ANALYSIS

the first year, but not higher than the third year and 34.67 percent graduated from fourth year. A large majority (84.44%) of those who attended college completed at most the third year while the rest (15.56%) finished fourth year or higher (Table 5).

The males registered a higher proportion of those who had elementary education (61.73%) than the females (60.04%). Likewise, the former also registered a higher proportion of those who had no formal schooling (males — 8.95%, and females — 8.72%). For those who reached college and for academic degree holders, the rates were higher among females (6.32% and 4.53%, respectively) than among males (5.86% and 3.10%, respectively).

FIG. 3 — PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, NEGROS OCCIDENTAL: 1980

A BRIEF ANALYSIS

The following table shows the distribution of the private household population 7 years old and over according to highest grade completed in the last two censal years:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, NEGROS OCCIDENTAL: 1975 AND 1980**

| Highest Grade Completed | 1980 | | 1975 | |
|-------------------------|------------------|---------------|------------------|---------------|
| | Number | Percent | Number | Percent |
| Total | <u>1,497,185</u> | <u>100.00</u> | <u>1,389,399</u> | <u>100.00</u> |
| No grade completed | 132,322 | 8.84 | 149,037 | 10.73 |
| Elementary | 911,599 | 60.89 | 883,176 | 63.56 |
| High School | 300,265 | 20.05 | 234,965 | 16.91 |
| College | 91,194 | 6.09 | 59,720 | 4.30 |
| Academic degree holder | 57,072 | 3.81 | 40,676 | 2.93 |
| Not stated | 4,733 | 0.32 | 21,825 | 1.57 |

A BRIEF ANALYSIS

LITERACY

The literacy rate for the private household population aged 10 years and over in the province was 80.20 percent. Urban areas had a higher rate of literacy than the rural areas (90.66% against 73.76%). This may be attributed to the accessibility of more schools in the urban sector.

Females turned out to be more literate than males (81.48% against 78.93%). In the urban areas, there were 90.97 percent female literates compared to 90.32 percent for their urban partners. For the rural females, 75.22 percent were literate, still higher than the rural males, 72.37 percent.

LANGUAGE OR DIALECT

At least 28 languages and dialects are reported spoken in this province, but Hiligaynon (Ilongo) remains as its major dialect. In the municipality of Valladolid, no other dialect is used except Hiligaynon (Ilongo).

A little over four-fifths (80.27%) of the 325,652 private households in Negros Occidental generally speak Hiligaynon. About 19.47 percent reported Cebuano; 0.12 percent, Tagalog and 0.02 percent, Chinese. The remaining 0.12 percent speak one of the other languages and dialects shown in Table 7.

A BRIEF ANALYSIS

GAINFUL OCCUPATION

A total of 571,054 persons or 52.21 percent of the private household population 15 years old and over are gainful workers, of which 76.57 percent are males.

Agricultural, animal husbandry and forestry workers, fishermen and hunters make up the biggest group of gainful workers with 56.08 percent. Nevertheless, this figure is 2.13 percentage points lower than the 1975 proportion. Production and related workers, transport equipment operators and laborers remain second in rank but constitute only 16.00 percent. Third in line and rising by 0.67 percentage point since 1975 are service workers with 9.00 percent. Sales workers place fourth at 7.08 percent followed by professional, technical and related workers with 5.14 percent. Clerical and related workers and administrative, executive and managerial workers, the least among the major occupational groups, declined to 3.85 percent and 0.37 percent, respectively. Workers not classifiable by occupation account for 2.48 percent (Table 8).

Shown below are comparative changes in the proportion of workers engaged in various gainful occupations from 1970 to 1980:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP, NEGROS OCCIDENTAL: 1970, 1975 AND 1980**

| Major Occupation Group | 1980 | | 1975 | | 1970 | |
|--|----------------|---------------|----------------|---------------|----------------|---------------|
| | Number | Percent | Number | Percent | Number | Percent |
| Total | <u>571,054</u> | <u>100.00</u> | <u>504,229</u> | <u>100.00</u> | <u>491,673</u> | <u>100.00</u> |
| Professional, technical and related workers | 29,368 | 5.14 | 22,135 | 4.39 | 30,253 | 6.15 |
| Administrative, executive and managerial workers | 2,106 | 0.37 | 2,523 | 0.50 | 4,554 | 0.93 |
| Clerical and related workers | 21,967 | 3.85 | 19,955 | 3.96 | 14,524 | 2.95 |
| Sales workers | 40,440 | 7.08 | 34,189 | 6.78 | 30,713 | 6.25 |
| Service workers | 51,416 | 9.00 | 41,977 | 8.33 | 40,620 | 8.26 |
| Agricultural, animal husbandry and forestry workers, fishermen and hunters | 320,219 | 56.08 | 293,524 | 58.21 | 259,624 | 52.81 |
| Production and related workers, transport equipment operators and laborers | 91,374 | 16.00 | 87,699 | 17.39 | 105,564 | 21.47 |
| Workers not classifiable by occupation | 14,164 | 2.48 | 2,227 | 0.44 | 5,821 | 1.18 |

A BRIEF ANALYSIS

INDUSTRY

Agriculture, fishery and forestry, the single largest major industry group, account for 58.97 percent of the total gainful workers 15 years old and over. Agricultural crop producers chiefly comprise this group with an 88.31 percent share. The rest are workers in fishery (9.75%), production of livestock, poultry and other animals (0.77%), forestry (0.66%), agricultural services (0.50%) and hunting, trapping and game propagation (0.01%). Persons employed in community, social and personal services contribute 15.78 percent with personal and household services (55.54%), education services (21.29%), and public administration and defense (9.70%) serving as the workers' principal concentrations. Wholesale and retail trade contribute only 7.05 percent; manufacturing, 6.34 percent; transportation, storage and communication, 4.96 percent; construction, 2.73 percent and financing, insurance, real estate and business services, 2.28 percent. Industries with the least number of workers are mining and quarrying with 0.55 percent and electricity, gas and water with 0.24 percent (Table 9).

MIGRATION

Out of 1,611,554 private household persons 5 years old and over, 94.93 percent have been residing in the same city/municipality where they had lived on May 1, 1975. Only 4.01 percent were then residing in another city or municipality of this province (intra-provincial migrants), while 0.99 percent were staying in other provinces (inter-provincial migrants). A small percentage of the population (0.07%) were residents of other countries. The females

A BRIEF ANALYSIS

outnumbered the males in intra-provincial migration (2.09%, females; 1.92%, males) and inter-provincial migration (0.51%, females; 0.48%, males). However, more males previously resided in foreign countries in 1975 compared to the females (0.04% against 0.03%).

TYPE OF BUILDING

Almost all (95.44%) of the 325,652 households in the province are occupying single houses. The rest are living in duplex (2.80%), apartment/accesoria/condominium/row house/etc. (0.66%), improvised structures such as barong-barong (0.61%), commercial/industrial/agricultural buildings (0.44%), and in other types of structures (0.05%).

A higher proportion of households living in single houses are in the rural areas (65.42%) and 34.58 percent are in the urban areas. Similarly, a greater proportion of households living in duplex are in the rural areas (rural – 57.90%, urban – 42.10%). Also, more than one-half of the households living in other types of buildings are from the rural areas; other housing unit like natural shelter, boat, etc. (55.13%) and other collective living quarters such as military camp, etc. (61.54%). In contrast, more urban households are occupying apartment/accesoria/condominium/row house (70.28%); commercial/industrial/agricultural buildings (84.02%); hotel, lodging house, dormitory, etc. (65.85%); institutional structures like hospital, convent, school dormitory, etc. (65.38%) and improvised structures (50.66%).

The following table presents the housing conditions of households in Negros Occidental during the past 10 years. It is noted that in 1970, majority or 91.51 percent of the 244,552 households lived in single houses and 3.06 percent were in improvised structures. Ten years after, the number of occupants of improvised structures was down to 0.61 percent of the total households, thus increasing the relative number of single house dwellers to 95.44 percent.

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, NEGROS OCCIDENTAL: 1970 AND 1980**

| Type of Building | 1980 | | 1970 | |
|--|---------|---------|---------|---------|

| Other collective living quarters (military camp, etc.) | 26 | 0.01 | — | — |

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

Of the total number of households, 245,834 or 75.49 percent are owners of their occupied dwelling units. The rest of the households are either tenants/lessees (8.34%), subtenants/sublessees (0.51%), or rent-free occupants (15.66%). Almost three-fourths of the urban (74.77%) and 75.88 percent of the rural households are owners of their dwelling units (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Approximately seven out of 10 households (69.75%) had the roof of their dwelling units constructed of light materials (cogon/nipa, makeshift/salvaged materials and other such as anahaw, etc.) and 30.25 percent, of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone and asbestos). Of the urban households, 53.98 percent occupy dwelling units with roof of light materials and 46.02 percent, of strong materials. Likewise, dwelling units of rural households are mostly constructed with roof of light materials (78.37%).

Outer walls of light materials (bamboo/sawali, cogon/nipa, makeshift/salvaged materials and other such as anahaw, etc.) are used by fifty-one percent of the households. This pattern also holds true for households in the rural areas where 62.76 percent live in dwelling units with outer walls built of the same materials. On the other hand, a higher proportion of the urban households (70.52%) reside in dwelling units with outer walls built of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone, wood/plywood, mixed tile/concrete/brick/stone and wood/plywood and asbestos) than of light materials (29.48%) (Table 2).

YEAR BUILT

More than one-third, or 36.41 percent of the total households are occupants of dwelling units built in 1976-1980; 26.13 percent, during 1971-1975; 23.27 percent, 1961-1970; 9.91 percent, 1951-1960; 2.90 percent, 1942-1950 and 1.38 percent, during World War II or earlier (Table 2).

FLOOR AREA OF DWELLING UNITS

Majority of the households (57.39%) occupy dwelling units with floor area of less than 30 square meters (Table 3). About 27.05 percent live in 30-49 square-meter dwelling units; 7.07 percent, in units of 50-69 square meters and 3.99 percent, in units of 70-99 square meters. Few households have more spacious dwelling units with floor areas of 100-149 square meters (2.27%), 150-199 square meters (0.97%) and 200 square meters and over (1.35%).

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Of the 245,834 households in owner-occupied dwelling units, 30.02 percent also own the land where the structure is erected. The remaining proportions are as follows: 14.94 percent, lessee or sublessee; 14.10 percent, farm lessee/agricultural tenant of landowner and 8.62 percent, other legal tenure. Approximately 32.32 percent have no tenure (squatter, etc.) to the land on which their dwelling units stand (Table 4).

A BRIEF ANALYSIS

KIND OF LIGHTING FACILITIES

A little over three-fourths (76.12%) of the households in Negros Occidental use kerosene for lighting. About 21.63 percent use electricity; 1.78 percent, liquefied petroleum gas (LPG); 0.11 percent, oil; and 0.36 percent, others such as candles or wax. More urban (45.00%) than rural households (8.86%) are using electricity for lighting. In the rural areas, kerosene is used by a large majority (88.44%) of the households.

SOURCE AND USE OF WATER SUPPLY

Households depending on dug well as their source of drinking water comprise 34.80 percent while 22.62 percent utilize water from the faucet, community water system; 18.69 percent, from tubed/piped deep well; 17.41 percent, from spring and 5.55 percent from tubed/piped shallow well. Very few households get their drinking water from lake, river, stream, etc. (0.73%) or depend on rain (0.20%).

For kitchen use and for washing clothes, more households likewise depend on the dug well and the faucet, community water system as their main sources of water supply. About 40.05 percent of the households use water from dug well for kitchen use and 35.89 percent, for washing clothes. For the same purposes, faucet, community water system is used by 19.63 percent and 18.08 percent, respectively; tubed/piped deep well, by 16.86 percent and 15.32 percent; and water from spring, 16.56 percent and 13.84 percent. A small percentage used the tubed/piped shallow well for kitchen use (5.04%) and for washing clothes (4.64%). Only 1.51 percent rely on lake, river, stream, irrigation, etc. for their kitchen needs; 11.93 percent utilize water from these sources for washing clothes (Table 6).

TOILET FACILITIES

There is no particular type of toilet facility being used by majority of the households, but the open pit is used by more than one-fifth of the households (21.38%). A lower percentage (19.91%) use the closed pit (antipolo, etc.); 11.94 percent water-sealed with sewer/septic tank; 7.27 percent, water-sealed with other depository and 2.35 percent, other (pail system, etc.) while 37.15 percent have no toilet facilities at all.

Urban residents have better toilet facilities than their rural counterparts. More than one-fourth (27.26%) of the urban households use water-sealed with sewer/septic tank; 21.99 percent, closed pit; 13.73 percent, open pit; 12.84 percent, water-sealed with other depository and 3.11 percent, other types. Those without toilet facilities account for 21.07 percent. In the rural sector, it is observed that more households (45.95%) do not have toilets, although a sizable portion (25.56%) have the open pit type. Other households use the closed pit (18.78%), the water-sealed with other depository (4.21%), water sealed with sewer/septic tank (3.56%), and 1.94 percent, other types.

COOKING FUEL

As in 1970, wood or charcoal is still the most common kind of cooking fuel in the province. However, the proportion of users declined from 87.63 percent to 84.68 percent after ten years. Households comprising 7.49 percent are reported as using kerosene for cooking. Very few households cook with liquefied petroleum gas (3.87%), other kinds of cooking fuel (2.89%), and electricity (1.07%). Wood or charcoal is widely used both in the urban and rural areas, although a higher percentage is observed in the latter (88.46 %) than in the former sector (77.76%) (Table 8).

A BRIEF ANALYSIS

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Of the total households in the province, 64.11 percent own radios; 8.43 percent have television sets while 6.25 percent are with refrigerators or freezers. Comparatively, the proportion of households who own these appliances is bigger in the urban than in the rural areas. Of the urban households, 69.09 percent own radios; 18.90 percent, television sets and 13.63 percent, refrigerators or freezers. Among the rural households, 61.39 percent have radios; 2.70 percent own television sets and 2.22 percent, refrigerators or freezers (Table 9).

HOUSING CENSUS QUESTIONS
(Encircle Code or Enter Appropriate Code If Required.)

12. 21

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

Transcribe
encircled codes
here.

H-1 What type is this building/house?

- 1 Single House
- 2 Duplex
- 3 Apartment/Accesoria/Condominium/Row house/etc.
- 4 Improved (Barons-Barong)
- 5 Commercial/Industrial/Agricultural
- 6 Other housing unit: natural shelter, boat, etc.
- 7 Hotel, lodging house, dormitory, etc.
- 8 Institutional hospital/convent/school dormitory/penal institution)
- 9 Other collective living quarters (refugee camp, logging camp, military camp, etc.)

H-2 What construction material is the roof made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Asbestos
- 4 Cogon/Nipa
- 5 Makehift/Salvaged Materials
- 6 Other (bamboo, etc.)

H-3 What construction material are the outer walls made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Wood/Plywood
- 4 Mixed Tile/Concrete/Brick/Stone and Wood/Plywood
- 5 Asbestos
- 6 Bamboo/Sawali
- 7 Cogon/Nipa
- 8 Makehift/Salvaged Materials
- 9 Other (bamboo, etc.)

H-4 When was this building/house built?

- 1 1980
- 2 1979
- 3 1978
- 4 1977
- 5 1976
- 6 1971 - 1975
- 7 1961 - 1970
- 8 1951 - 1960
- 9 1942 - 1950
- 0 1941 or earlier

H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)

H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, storeroom, passageway)?

- 1 Room
- 2 Rooms
- 3 Rooms
- 4 Rooms
- 5 Rooms
- 6 Rooms
- 7 Rooms
- 8 Rooms
- or more

H-6 What is the floor area of this dwelling unit in square meters?

- 1 Less than 30 sq. meter
- 2 30-49 sq. meters
- 3 50-69 sq. meters
- 4 70-99 sq. meters
- 5 100-149 sq. meters
- 6 150-199 sq. meters
- 7 200-249 sq. meters
- 8 250-299 sq. meters
- 9 300 sq. meters & over

H-7 to H-13 should be answered by all sample households.

H-7 How does this household occupy this dwelling unit?

- 1 Owner
- 2 Tenant/Lessee
- 3 Sub-tenant/sublessee
- 4 Rent-free

H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?

- 1 Owner
- 2 Lessee or sublessee
- 3 Farm lessee/agricultural tenant of landowner
- 4 Other legal tenure
- 5 No tenure (squatter, etc.)
- 6 Not applicable

H-9 What kind of lighting do you use?

- 1 Electricity
- 2 Kerosene
- 3 Liquefied Petroleum Gas (LPG)
- 4 Oil (vegetable, animal)
- 5 Other

H-10 What is the main source of your water supply - (Encircle only one for each use.)

- | For Drinking? | Kitchen Use? | For Washing Clothes? | Source of Water Supply |
|---------------|--------------|----------------------|---|
| 01 | 01 | 01 | Faucet inside house/yard. |
| 02 | 02 | 02 | Community Water System |
| 03 | 03 | 03 | Faucet, Public, Community Water System |
| 04 | 04 | 04 | Faucet, Other, Community Water System |
| 05 | 05 | 05 | At least 5 of 20 ft. Tubed/piped deep well. |
| 06 | 06 | 06 | Tubed/piped deep well, 30 meters deep |
| 07 | 07 | 07 | Other Tubed/piped shallow well. |
| 08 | 08 | 08 | Public Tubed/piped shallow well. |
| 09 | 09 | 09 | Public Tubed/piped shallow well. |
| 10 | 10 | 10 | Dug well, improved (covered and no seepage from side) |
| 11 | 11 | 11 | Dug well, Other |
| 12 | 12 | 12 | Spring, improved (with tube/pipe outlet) |
| 13 | 13 | 13 | Spring, Other |
| 14 | 14 | 14 | Rain |
| 15 | 15 | 15 | Lake, river, stream, irrigation, etc. |

H-11 What kind of fuel do you use most of the time for cooking?

- 1 Electricity
- 2 Kerosene
- 3 Liquefied Petroleum Gas (LPG)
- 4 Wood, charcoal
- 5 Other

H-12 What kind of toilet facilities do you use?

- 1 Water-sealed, sewer/septic tank, used exclusively by household
- 2 Water-sealed, sewer/septic tank, shared with other households
- 3 Water-sealed, other depository, used exclusively by the household
- 4 Water-sealed, other depository, shared with other households
- 5 Closed pit (antipolo, etc.)
- 6 Open pit
- 7 Other (gall system, etc.)
- 8 None

H-13 Do you have these appliances in working condition?

- | YES | NO | a. Radio | b. TV | c. Refrigerator/Freezer |

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)
Title _____
Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus)
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy). PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizen working and living inside the camps.
